---

### Summary

- B.E(Pursuing) - Computer Engineering from ITM Universe (Vadodara) in 2019.
- Quick Learning and Understanding the System.
- A self-motivated, well organized candidates with an ability to analyze things and get creative solutions.
- A dedicated, determined Computer Engineer seeking entry level assignments in the core field with an organization of repute.

---

### Academia

---

#### ITM Universe / Computer Engineering (Present)

JUNE 2015 -MAY 2019, Vadodara

- University: Gujarat Technological University, Gujarat, India
- CGPA – 7.22
- CPI – 6.95

#### Shree Narayan Vidyalaya / HSC

JUNE, 2013- MAY, 2015, Vadodara

- State Board (Percentage – 79.23%)

#### Shree Ambe Vidyalaya / SSC

JUNE, 2012- APRIL, 2013, Vadodara

- Gujarat Board (Percentage – 76%)

---

### Technical Skills

- Android Application Development
- iOS Application Development
- GitHub (Command Line Interface)
- Java Development
- UI Development using Adobe XD
- Other Skills:  
I know Arduino Uno micro-controller pretty well and had made Line Follower Robot in College Fest.

---

### Academia Projects

---

#### \_breakpoint App\* / iOS

Social Application with coders theme

Github: [https://github.com/ketanchoyal/\\_breakpoint](https://github.com/ketanchoyal/_breakpoint)

#### Attendance Application / Android

D.E Project

Github: <https://github.com/ketanchoyal/AttendanceManagement>

### **Crossfire / Android**

Chat Application

Github: <https://github.com/ketanchoyal/Crossfire>

### **Dev-Chat App / iOS**

Group Channel Chat Application

Github: <https://github.com/ketanchoyal/Dev-ChatApp>

### **Clima / iOS**

Realtime Weather Application

Github: <https://github.com/ketanchoyal/Clima>

### **Bitcoin-Price-Tracker / iOS**

Realtime Bitcoin Application

Github: <https://github.com/ketanchoyal/BitCoin-Price-Tracker>

### **Event Management / Html, Java Script, PHP**

College Submission Project

### **Student's Management System / Java, JSP**

College Submission Project

### **Theparker \* / Android**

Final Year Project

### **Match-Game / iOS**

iOS Game

Github: <https://github.com/ketanchoyal/Match-App>

---

## **Workshop**

- 
- Arduino Workshop organized by our college
  - Android Workshop organized by our college

---

## **Hobbies**

- 
- Exploring new Technologies(mostly regarding mobile development)
  - Hackintosh Building (Hacked Mackintosh Computer Building)
  - Shuffle Dance(aka- Melbourne Shuffle)
  - Listening to Music

---

## **Certificates**

- 
- **Java**  
IIT, Mumbai (September 2017)
  - **C++**  
IIT, Mumbai (April 2017)
  - **C Language:**  
IIT, Mumbai (October 2016)
  - **Illuminati 2017**
    - Follow Me - Roger That! (Arduino Uno Line following robot)
    - Robo Race (Off-road Robot racing)

**Date:**

**Place: Vadodara**
